Soviets Claim Fear, Turmoil Rule in U.S.

MOSCOW — (AP) — Soviet correspondents are pointing the United States as in such turmoil that many people hardly dare leave their homes because of threats to those trying to cover up the assassination of President Kennedy.

"The Dallas ultra feel so confident," reported Boris Strazhevich in a dispatch from New York to Pravda, "that even the mayor of that city (Dallas) does not dare leave his home to go into the streets. Some strangers threatened to kill him because he dared to be present at Mr. Kennedy's funeral."

HE ADDED that witnesses called by the FBI in Dallas dare not testify for fear of reprisals from the "ultras."

In Dallas, Mayor Earle Cabell called the report "utterly ridiculous."

Another 1911's newspaper, "Link," was quoted as saying officers were being made to put the blame on American Communists. Such attempts, the paper said, are ludicrous and naïve.

From Paris came a dispatch to Pravda quoting French papers as saying "Oswald fled to Moscow."

A slow swing in the nature of the reporting from the United States has turned against Lee Harvey Oswald. In the beginning, Oswald was depicted as a lone gunman who shot Kennedy in the streets of Dallas. Now, however, the reports are that Oswald was in the USSR.

IT DID NOT GIVE further details of what the "ultra" reason was.

Other reports published here are that Oswald was in the USSR and Dallas jump every time the telephone rings.

SUNDAY, PRAYDA published reports by Henry Freedman, an American reporter for Tass in New York, citing a report of a New York newspaper that Oswald had typed some notes of a book Oswald sought to write on the Soviet Union.

From Paris, Soviet reporters have finished reports to Moscow pointing to the rule that Oswald was played in the assassination by "ultras."

CLEARLY, SOMETHING is being said to a world-wide effect in being

crossed and shot Oswald, 34, pointblank in the abdomen as he hurriedly prepared to transfer the accused killer between jails to await trial.

THE CITY police investigation by top Texas officer extended beyond the police who were in the city hall basement one week ago Sunday.

Both ununiformed police and plainclothesmen said they had been summoned to the closed-door inquiry.

THE FBI is now in charge of the physical evidence and is releasing almost no information, although a presidential commission may make it public later.

Ruby, 52, darted out of a printing company and possibly toward the main street in that way.

Oswald left voluminous notes about his activities, particularly concerning a pro-Castro group called the Fair Play for Cuba committee. The notes contained many names.

THE NAMES might mean something to the police, but "nothing," a source said, the Times Herald reported without naming the spy.

Oswald's Mother Says He Did Not Shoot JFK

PORT WORTH — Mrs. Margaret Oswald, mother of the slain man who shot Lee Harvey Oswald, maintained in an interview Sunday a belief that her son did not kill President Kennedy.

She also expressed a belief that her son was in a state of mind that he could not have shot a man.

During the interview, Mrs. Oswald said the story of her life is one "that is filled with trial and tribulation."

Mrs. Oswald said Lee attempted to arrange for the adoption of his daughter, just as she had refused to go through with it when he learned he would be expected to contribute financially for the service.

She said he did not at the time have money enough to buy a rifle and clothing.

Mrs. Oswald said she has received some 400 letters from the United States and from foreign countries offering sympathy and material help since the assassination.

● DALLAS — (AP) — An attorney for Jack Ruby, the Dallas strip tease joint operator who killed President Kennedy's accused assassin, said Sunday night letters and telegrams continue to pour in favorable to Ruby's defense.

Tom Howard of Dallas said that about four of some 300 letters and telegrams received have been against Ruby.
