

7/

S: I've been working on Buell Wesley Fraser for some time.

G: Well, this is the first time we've talked, you see, which makes it interesting because independently we found our way to him which is always the best thing.

F: My thinking was this: First of all, I think that's him in the window.

G: Bud, this is the first time that he and I have talk3ed about Fraser and independently we've ...

S: Secondly, he says he wasn't there. There are ~~six~~ only 2 or 3 possibilities for those guys to be -- unless it's somebody who snuck in.

G: If you want to see an example of how they put a lock on somebody now for later testimony, imagine the lock that they have on Lenny May Randall when ~~he~~ they've got her brother involved in this, she will testify to anything they want.

S: And finally, you have that damned bag and we know Goddamn well that the bag that was brought out of the building was just too long to be the bag that's in the Commission exhibit. I think the police made the bag.

G: Did you see the size they had carrying out? Like for a howitzer.

S: There's only one guy who has testified to the fact that Oswald carried the thing in and that's Fraser. Now suppose he made that up.

G: At least one employee at the depository said Oswald did not have a gun.

S: Of course Fraser mistaken -- they coached him but not well enough because he said he saw it like this, you know.

F: It would have been hanging down to his knees.

S: So I figure that Fraser was coached or lied on purpose.

G: As a matter of fact, he says that morning, instead of walking in with him like he usually does, he ~~was~~ hung back and walked about 50 paces behind him

-108-

because Oswald was going in with a bag in front of him.

F: I guess it will be necessary now to check out some of Fraser's activities, friends,

T: We know nothing about Fraser.

F:q I say, but nobody's ever checked him out.

T: No. We just ignored him.

G: I just found this out and when Bill came back from Texas -- I said "My God, look at this about Fraser" and he said "Christ, that's interesting because I just learned that he came back from Boeing".

F: I figure that this guy here is telling him what to do. You know, they are talking in that window.

T: This could be Ruby's truck. The one he was driving. that green truck.

G: Yeah. It's just a plain truck -- ~~that~~

T: That pickup that Julianne Mercer told us.

F: Lawrence is pretty high up on my list of people I want to check out.

G: I think so too. ~~Positively.~~

F: But this Wesley Fraser is the one who just absolutely puts me aghast.

G: He's red-hot. In other words, Fraser is so strong that it is just unbelievable that they would dare to get away with something like this.

F: That's pretty gutsy, when you think about it.

G: The Chief Justice of the U. S. ...

F: They could have done away with that son-of-a-bitch. He could have met an accident -- real bad accident.

-195-

F: Well, it looks like the chief suspects at the moment, including Fraser who I never thought of before...

T: You see, he and Linney Mae seem such hillbillies, you know, that I just didn't...

F: Here again it should be Dr. Schweitzer but he's busy.

Box: They are both right-wing nuts.

F: How do you know that?

Box: I don't know. It's my impression from reading their testimony and other people's testimony about them and the contact I had...

T: It sure is interesting, though, that Linny Mae had that contact with the school depository.

F: What contact did she have?

T: Knew somebody there.

F: I thought it was the brother who knew there was a position open who told the sister who told

Box: That's the story they tell but we don't really know how it came about. You just stop and look at the Warren report for a minute and take cases like Craigs, or Marilyn Murrets who said "I didn't say anything like that. I said so and so". They made "I will see Jack" to "I went to see Jack" or vice versa. They made

F: Jack Lawrence. I have a very strong feeling from what we learned today that Wesley Fraser had some hand in it. He's still around. There may be some others. This guy Mike Barclay was there for some reason.

Box: Well, just be reasonable. If you want to kill the President, you get a guy -- you get me to go hire you some guns to go do the job for X dollars. We do the job -- now I am not going to let those guns live to put the finger on me. I'm going to take care of their termination and disposal myself. I won't even ask you about it. By the way, I figure you're not going to let me live
